## InMail Messages

### InMail #1: Regulation Isn't Enough

Hi <First Name>,

Compliance doesn't equal security. After the recent mobile archiving breach, it's clear many solutions stop short.

MultiLine gives financial firms encrypted voice + text capture on any device—fully auditable, fully secure. Built for FINRA, SEC, and client trust.

Want to see how your peers are staying compliant *and* protected? Let's connect.

### InMail #2: Your Clients Expect More

Hi <First Name>,

Every call, every message—your clients trust it's private.

MultiLine ensures your team stays compliant without asking them to change phones or behaviors. Just secure, logged conversations on any device.

Let's talk through how simple it is to implement.

### InMail #3: Still Relying on Disclaimers? Hi <>,

Legal disclaimers won't save you in an audit. MultiLine captures every business call and message automatically, encrypted, and archived to spec.

If compliance matters, so does coverage. Want to explore what this looks like?

### InMail #4: BYOD, But Secure

Hi <First Name>,

Your team is mobile. MultiLine lets them use their own devices without exposing your firm to risk.

End-to-end encryption, full compliance logs, and no extra hardware needed.

Sound like something worth reviewing?

## InMail #5: Don't Let a Breach Be the Wake-Up Call

Hi <First Name>,

Firms hit by the TeleMessage (a subsidiary of Smarsh) breach never expected it either.

MultiLine helps financial orgs lock down mobile comms while keeping workflows simple. We're offering 50% off for the first year.

Want a quick overview?

### Connect Messages (Financial Services):

1. Helping finance teams secure voice + SMS with full audit trails. Thought it could align with your role.
2. We work with firms like yours to stay FINRA/SEC compliant with secure mobile logging. Thought to connect.
3. Working on encrypted mobile archiving that doesn't disrupt workflows. Happy to connect.
4. Helping orgs avoid breaches like the recent Smarsh incident. Would love to share how.
5. Mobile compliance without the hassle. MultiLine is making it easy. Thought we should connect.

## Healthcare

### InMail Messages

#### InMail #1: HIPAA Doesn't Stop at the Office

Hi <First Name>,

Healthcare staff talk to patients from everywhere. Is that communication secure?

MultiLine encrypts voice + text on mobile for HIPAA compliance—no new devices, no app confusion.

Want to see how simple secure mobile can be?

#### InMail #2: Protect Patient Data Anywhere

Hi <First Name>,

Patient privacy doesn't end at the front desk.

MultiLine lets healthcare pros communicate securely on any device, with compliant logs and encryption baked in.

Let's walk through how it works.

### **InMail #3: Reduce Risk, Not Mobility**

Hi <First Name>,

If your staff uses mobile to talk to patients, you need secure logging. MultiLine handles it—voice, text, all compliant.

We're offering 50% off your first year. Want to take a look?

### **InMail #4: Mobile Calls = PHI Risk**

Hi <First Name>,

Unsecured calls can expose PHI.

MultiLine secures mobile calls + texts for HIPAA, with zero change to how your team works. Let's talk protection.

### **InMail #5: Post-Breach Proofing**

Hi <First Name>,

The healthcare industry is under cyberattack. Don't wait for your wake-up call.

MultiLine locks down mobile communications for HIPAA compliance and peace of mind. Let's connect.

## **Connect Messages**

1. Helping healthcare teams stay HIPAA-compliant on mobile. Thought it might apply to your work.
2. We secure mobile voice + text for providers. Easy to use, hard to breach.
3. Working on PHI-safe mobile messaging for care teams. Thought to connect.
4. HIPAA compliance meets mobility. Helping orgs communicate safely.
5. Built for mobile medical teams—secure, logged, and easy. Let's connect.

## **Law Enforcement & Government**

## InMail Messages

### InMail #1: One Line. Total Oversight.

Hi <first name>,

MultiLine gives your officers a secure second number for work—with archived voice and messaging built for public records and IA reviews.

Protects the agency. Protects the officer. No new devices needed.

Want a quick overview?

### InMail #2: What Did the Officer Say?

Hi <first name>,

Bodycams don't cover phone calls.

MultiLine lets you log every voice + text interaction, fully encrypted and accessible for IA or FOIA.

We're offering 50% off for 12 months. Want to explore?

### InMail #3: No More Gray Areas

Hi <first name>,

Internal affairs. Public records. Legal discovery.

MultiLine gives you the coverage to support it all.

Let's connect if you're evaluating comms policy upgrades.

### InMail #4: Your Records Policy Isn't Enough

Hi <first name>,

Policies don't protect against lawsuits. Proof does.

MultiLine logs every message, every call—compliant, encrypted, ready.

Let's talk.

## InMail #5: Real Oversight, Real Fast

Hi <first name>,

You need to know what was said, when, and by who.

MultiLine gives full visibility into officer communications. That's accountability. And protection.

Let me know if you'd like to see more.

## Connect Messages

1. Helping agencies log mobile voice/SMS for IA, FOIA, and discovery. Thought it might apply to your work.
2. We secure officer comms with full audit trails. Worth a quick connect.
3. Supporting command staff with better mobile oversight. Let's connect.
4. Mobile logging, built for police. Happy to show what's possible.
5. Helping PDs modernize communication compliance. Would love to connect.

## Legal

## InMail Messages

### InMail #1: Conversations Are Evidence

Hi <first name>,

If your attorneys are using mobile phones, those conversations need to be logged, encrypted, and secure.

MultiLine gives firms control, without disrupting workflows. Want to take a look?

### InMail #2: Client Comms, Secured

Hi <first name>,

Your clients expect confidentiality. MultiLine ensures secure, logged communications from any mobile device.

Built for attorneys. Backed by T-Mobile. Let's talk.

### **InMail #3: BYOD Without the Risk**

Hi <first name>,

Your team wants flexibility. You want control.

MultiLine supports both—secure voice/text logging on any device. Encrypted. Compliant. Easy. Interested?

### **InMail #4: Avoid the Discovery Nightmare**

Hi <first name>,

MultiLine captures mobile calls and texts, so you're always ready for litigation, e-discovery, or regulatory inquiries.

No device swaps. Just secure mobile compliance. Want to connect?

### **InMail #5: Protect Privilege**

Hi <first name>,

Don't let unsecured mobile calls jeopardize attorney-client privilege.

MultiLine encrypts and archives every call/text, helping protect your firm and clients. Let's chat.

### **Connect Messages:**

1. Helping legal teams secure mobile comms and stay litigation-ready. Thought to connect.
2. Working on encrypted mobile logging for law firms. Might be worth a quick intro.
3. BYOD + compliance? MultiLine solves it. Happy to connect.
4. Supporting attorney-client privilege with secure comms. Let's connect.
5. Mobile calls and e-discovery protection? We're helping firms get ahead of it.
