

ALWAYS-ON EMERGENCY COMMUNICATION FOR SCHOOLS

Protect students, staff, and ensure communication and compliance with a reliable backup phone that works, when traditional systems fail.

When every second counts, schools can't afford communication breakdowns. As copper phone lines disappear and internet-based systems face outages, districts need a redundant solution that ensures safety and compliance. The School Safety Communication Hub provides a dedicated, cellular-based phone line that keeps you connected — even during power or internet outages.

More than just a phone, the Hub combines calls, text, email, access to emergency apps and can even provide a Wi-Fi hotspot into one portable, easy-to-manage device.

Core Benefits for Schools:

- ✓ **Compliant & Safe** – Native E911 location accuracy; fully meets Kari's Law & RAY BAUM's Act requirements.
- ✓ **Reliable in Outages** – Dual redundancy with built-in 2000mAh battery
- ✓ **Multi-Function** – Phone, text, email, hotspot, and apps on a 7" Android-powered touchscreen.
- ✓ **Easy Management** – Remote Mobile Device Management (MDM), native directory, and Bluetooth 5.0 for seamless integration.
- ✓ **Crystal-Clear Emergency Support** – HD audio ensures critical instructions are heard when it matters most.
- ✓ **Affordable** – Up to 50% lower monthly costs than traditional POTS lines
- ✓ **Peace of Mind** – Simple to deploy and scale across campuses as part of a complete school safety portfolio.

How the Hub Supports:

Superintendents

It strengthens district-wide safety with reliable, compliant backup communication.

Principals

It keeps your school connected to ensure fast, coordinated emergency response.

School Board Members

It provides confidence that your schools are safe, compliant, and fiscally responsible.

Directors of School Safety

It supports your protocols with dependable, uninterrupted emergency communication.

CTO / Technology Directors

It streamlines your work with remote management and real-time device visibility.

CFO / Finance Directors

It strengthens your safety budget strategy with predictable costs.

Keep your schools safe, connected, and compliant. Ask about the School Emergency Communication Hub today.
