

SIMPLIFI VOICELINK – POTS LINE REPLACEMENT

Affordable, Flexible, and Scalable

Why POTS Replacement Can't Wait

- ✓ **FCC Mandate:** POTS lines are being phased out—cellular is the future.
- ✓ **Rising Costs:** Maintaining aging copper lines is increasingly expensive.
- ✓ **Compliance Risks:** Legacy systems often fall short of PCI, HIPAA, and NFPA 72 standards.
- ✓ **No Upgrade Path:** Copper lines won't be modernized by carriers.
- ✓ **Operational Risks:** Outdated lines have higher failure rates, limited visibility, and greater vulnerability.

Simplifi VoiceLink: Reliable, Cost-Effective Communication

Simplifi VoiceLink replaces outdated POTS lines with LTE-based connectivity, keeping critical systems online — including phones, fax lines, elevators, fire alarms, security panels, and emergency phones — without the cost and hassle of copper.

Key Features:

- **Easy Plug & Play:** Power, connect, and go — no trenching or rewiring required
- **E911 Compatible:** Supports emergency location services for compliance and safety
- **Remote Management:** Monitor and manage devices centrally for IT efficiency
- **Cost Savings:** Eliminate expensive POTS line fees with predictable pricing
- **Optional Battery Backup:** Continue service during power outages
- **Secure & Reliable:** Proven LTE connectivity for life-safety systems

3 Simple Steps to Get Started

1

Plug the Simplifi into a power outlet and connect your VoiceLink dongle.

2

Plug your phone line into the VoiceLink dongle.

3

Start using your equipment — Simplifi supports faxing, calling, E911 compliance, and other POTS line devices.

Modernize Today

Keep your critical systems connected, secure, and cost-effective.
