

Premier TotalProtect for Libraries

AFFORDABLE PROTECTION FOR THE HOTSPOTS YOU LEND—JUST \$6.99/YEAR

Safeguard Your Lending Program Without Stretching Your Budget

Hotspots are an essential part of library services, helping patrons stay connected for school, work, healthcare, and more. But too often, those devices are lost, damaged, or never returned. Premier TotalProtect for Libraries offers low-cost, worry-free protection that saves libraries money—and makes hotspot programs more sustainable.

What the Program Includes:

- Full coverage for lost, stolen, or unreturned hotspots
- Accidental damage protection (drops, spills, broken parts)
- \$0 deductibles—ever
- One simple flat rate: just \$6.99 per device per year
- Works with your existing or new hotspots
- No paperwork or claims hassles—we handle it for you

Why It Makes Sense:

- Hotspots are frequently lost, damaged, or unreturned, making them one of the most vulnerable library assets.
- Replacement costs add up quickly—often \$100+ per device—but \$6.99/year can cover dozens. One saved device pays for the program.
- Protects your budget and keeps your hotspot lending program running without disruption.
- Reduces staff workload by minimizing time spent chasing down lost devices or handling replacements.
- Provides a simple, reliable path to replace devices when things go wrong.

Easy to Launch, Simple to Manage

Libraries nationwide are adding TotalProtect to their hotspot programs, and seeing real savings. There's no complicated setup and no administrative burden. Just a smart way to stretch your budget and support your community.

Protect your hotspots. Protect your investment.
