

INSTANT COMMUNICATION, BUILT FOR THE TOUGHEST JOBS

**In Stock
& Ready to
Deploy**

What It Is

The Siyata SD7 is a rugged Push-to-Talk over Cellular (PTT-C) device for organizations that can't afford communication breakdowns. Running on the T-Mobile nationwide network, it delivers crystal-clear voice, unlimited range, and dependable performance — without the distractions of a smartphone.

Why Choose the SD7

- ✓ **Built Tough for Any Job**
 - Military-grade durability (MIL-STD-810H, IP68)
 - Resists water, dust, and drops
- ✓ **Simple & Familiar**
 - Push-to-Talk button + rotary knob
 - No training headaches — easy adoption
- ✓ **Instant, Always-On Communication**
 - One-touch PTT with crystal-clear voice
 - Long-lasting battery keeps teams connected
- ✓ **Beyond Traditional Radios**
 - Runs on T-Mobile's nationwide network with unlimited range
 - Interoperability Across Agencies – Works with smartphones, dispatch consoles, & LMR radios
- ✓ **Smarter for Your Budget**
 - Lower total cost of ownership than radios or smartphones
 - Affordable PTT-only rate plans

Why Now

No waiting. No delays. The SD7 is in stock and ready to deploy today.

Next Step
