

Siyata SD7 Push-to-Talk Over Cellular (PTT-C)

1,000 Units In-Stock — Ready to Deploy Now

What It Is

A rugged, mission-critical Push-to-Talk device purpose-built for organizations that need instant, reliable communication without the distractions of a smartphone. The SD7 runs on the T-Mobile nationwide network, delivering crystal-clear voice, unlimited range, and rugged dependability.

Why Sell It?

- **T-Mobile Certified** – Nationwide coverage with superior reliability.
- **Simple & Familiar** – LMR-style buttons, rotary knob, and PTT-only setup make adoption seamless.
- **Rugged & Reliable** – Military-grade durability (MIL-STD-810H, IP68)
- **Cost-Effective** – Affordable PTT-only rate plans, lower TCO vs. radios or smartphones.

Best For

Sell the SD7 into these industries:

- **Public Safety & First Responders** – Fire, Police, EMS
- **Utilities & Field Services** – Energy, water, telecom crews
- **Education** – K-12 schools needing phone-free, compliant safety comms
- **Transportation & Logistics** – Fleets, delivery, and drivers
- **Construction & Manufacturing** – Rugged jobsites requiring dependable PTT
- **Government Agencies** – Road & Bridge, Public Works, Parks, General Services, Warehouse, and more

Sales Edge

- **1,000 Units In-Stock** — reps can close deals today with immediate deployments.
- **Easy Conversation Starter** — “What’s your backup if radios fail or coverage is limited?”
- **Package** — Pair the SD7 with T-Mobile’s affordable PTT-only plans for unbeatable ROI.

How to Close

Position the SD7 as the rugged, affordable, ready-to-deploy PTT solution on the T-Mobile network.
Close with urgency: “We have 1,000 units available now — how many do you need?”

Price: \$329.99
