

Reliable Connectivity. Safer Schools. Peace of Mind.

Premier Wireless + UScellular: A Partnership for School Safety

When a Crisis Strikes, Will Your School Stay Connected?

Most school networks aren't built for chaos:

- ✗ No intercoms or VoIP calls during outages
- ✗ No panic button access for staff
- ✗ No real-time video to police or SROs off-site
- ✗ No visibility into security camera feeds
- ✗ Loss of door access and entry management
- ✗ Limited parent communication through platforms like BlackBoard, ParentSquare or SquareMessenger
- ✗ No backup, no redundancy when land network is down

You need a Plan B that works when Plan A doesn't.

The Solution: Backup That Doesn't Blink

Through our partnership with UScellular, Premier Wireless delivers reliable, always-on backup solutions powered by SpeedFusion Hot Failover—so critical systems stay connected:

- ✓ Phones & radios for staff communication
- ✓ Panic buttons and emergency alerts
- ✓ PA and intercom systems
- ✓ Door access and entry control
- ✓ Security cameras and video feeds

Smart Safety Starts With the Right Tools

And it's all built on UScellular's powerful, rural-strong network—trusted by thousands of K–12 schools. Here's how we help schools like yours:

POTS Line Replacement & Emergency Phone Backup

Stay connected even when traditional phone lines go down. Location-aware emergency calling + voice, text, email & Zoom support.

Portable Cellular Wi-Fi Networks

Keep Wi-Fi running during outages — ideal for classrooms, field trips, or emergency command centers.

Voice & Data Communications — The Right Device for the Right Role

We deliver:

- Desk phones
- Smartphones
- Basic phones
- Radios
- Laptops/tablets

All connected through UCaaS for seamless, unified communications.

ReadyLink Solution — "Command Center in a Box"

Rugged kit with:

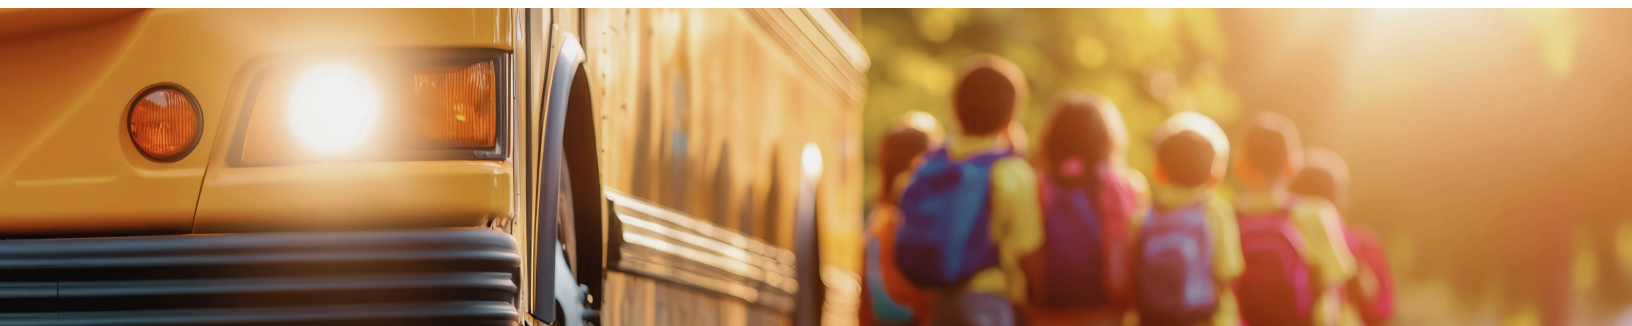

- Dual SIM connectivity
- Instant LTE backup
- Real-time visibility of staff & students
- Built-in emergency response tools

CRISISGO Panic Button Integration

Empower every staff member with a personal panic button linked to 911 & campus alerts via CrisisGo.

School Bus Safety Tech

1. Connected BUS
Wi-Fi + GPS + two-way comms for a safer, smarter student ride.
2. Crosswalk K12
Real-time fleet management + emergency visibility for school administrators.

Don't Let Budgets Hold You Back

We Help You Navigate School Safety Grants:

- ✓ School Violence Prevention Program (SVPP)
- ✓ STOP School Violence Grant Program

We'll guide you through the process—from identifying opportunities to strengthening your application with data and justification.

Why Deploy UScellular with Premier Wireless?

- ✓ Full deployment support & training
- ✓ 24/7 expert service
- ✓ Custom-built solutions for YOUR district
- ✓ Access to UScellular's strong 5G network

We don't just ship products — we solve problems.

Ready to Talk Plan B?

Let's future-proof your school's safety strategy
— before the next outage, storm, or threat.
